Welcome! Today, you are invited to explore three stations that share St. Luke's history, the master planning journey to date, and visioning opportunities to help shape the next 10–20 years of growth for our church and school. This workshop builds upon the input gathered in 2023–2024 and continues the conversation about how our campus can best support worship, learning, fellowship, and ministry for generations to come. Visit each station and complete the worksheet as you go. Your voice is an important part of this ongoing process!
